Recruiting Experts Team Up to Form TalentLink Solutions, LLC

Industry Veterans Amy Kizer and Jeffery Litteken Announce Launch of Financial Staffing Agency

San Diego – Nov. 3, 2014 – Managing Partners Amy Kizer, PHR, and Jeffery Litteken announced today the launch of new staffing agency TalentLink Solutions, LLC. The firm will assist financial services firms, such as independent broker-dealers, Registered Investment Advisors (RIAs), investment managers, retail banks and insurance companies find and recruit individuals that meet hiring needs.

TalentLink Solutions connects growing firms with quality candidates to fill roles in a variety of functions, from support staff and registered assistants to operations and mid-level management. The firm also specializes in finding qualified candidates for open positions in regulatory and compliance departments.

“A firm’s success is going to be determined by the quality of its team,” says Litteken. “With the alarming shortage of qualified candidates in the marketplace, TalentLink helps organizations looking to hire distinguish between a good-looking resume and the right fit individual.”

With over 30 years of combined experience in the staffing and recruiting industry, Kizer and Litteken have hired thousands of employees for firms across the nation. Prior to founding TalentLink, Kizer served as the in-house recruiter for a large, San Diego-based broker dealer and led hiring initiatives for the entire organization. Litteken spent nearly two decades placing financing and accounting professionals on a contract, consulting and direct hire basis and has worked for both Fortune 500 and Inc. 500/5000 firms.

“At TalentLink, we aim to be the most sought-after expert when it comes to hiring and recruiting in the financial services sector,” says Kizer. “Our network of contacts contains more than 200,000 individuals, in the financial services industry, across the nation. It is through this network that we are able to find candidates that meet the specific needs of our clients and hire employees that will integrate well with a firm’s culture.”

Through TalentLink, employers have access to 70 percent more candidates than they would by purchasing a listing on a digital job board. The TalentLink network allows the firm to reach passive candidates that may be considering a change of career, but have not yet started the search for new opportunities.
